

Varian 450-GC/240-MS

Gas Chromatography-Mass Spectrophotomer

Supported By: Agilent Technologies

Varian 450-GC/240-MS

Together with the Varian 450-GC, the 240-MS Ion Trap Mass Spectrometer delivers a flexible platform both for routine and advanced mass spectrometry applications. The combination of outstanding analytical performance with simple, easy-to-use and robust hardware and software.

Overall, the system provides:

- Exceptional EI full scan sensitivity
- Selected Ion Storage (SIS) for simple matrix elimination
- Accurate identification and quantitation
- Simple and robust analyzer for maximum productivity
- Intuitive software that makes operation simple
- Extensive standard and custom reporting
